What is CashPay?

Billing · https://enjoycommunities.com/faq/what-is-cashpay/

CashPay is a simple safe way to pay using cash. The process works almost the same way as buying a money order and can be used at many places that sell money orders. Simply request a CashPay form from your community manager. You can then take that form to a local retailer like WalMart to pay using cash. You can find CashPay locations by clicking “CashPay Locations” on the home screen.
